

## COMMITTEE IS VERY DECIDED

Philippine Bill Meets Its Waterloo In The  
Senate Committee Room Today.

## DEAD BY VOTE OF EIGHT TO FIVE

This Will Probably Mean That Nothing More Will Be  
Done With The Measure By The United  
States Senate.

[Special to The Gazette.]

Washington, March 2.—By a vote of 8 to 5 the Philippine tariff bill was beaten by the senate committee today after a two hours' executive session. The vote by which the bill was beaten is as follows: For reporting—Lodge, Beveridge, Long, Carmack, McGeary—5; against reporting—Hale, Burrows, Dick, Nixon, Brandegee, Culberson, Dubois, Stone—8. Prior to this vote those favoring the bill seeing the trend of sentiment moved that the committee adjourn. This was beaten by a vote of 7 to 6. Senator McGeary moved as a substitute a free trade bill which was defeated by a vote of 7 to 6 on a motion by Senator Brandegee to lay the substitute on the table. Senator Lodge then moved to report the bill adversely to the senate, but was defeated by a vote of 7 to 6. It is understood Senator Lodge will in the senate move to discharge the committee from further consideration of the bill and in that way bring it before the senate.

WM. WOLFF SMITH.

## TEXAS CELEBRATES INDEPENDENCE DAY

Seventieth Anniversary of Document  
Which Created the Lone  
Star Republic.

[Special to The Gazette.]

Austin, Texas, March 2.—Today was the seventieth anniversary of Texas independence, and it was suitably observed in the capital and other cities of the state. Appropriate exercises were held at the state university and other colleges and schools. Special programs were prepared for the public schools, including the raising of the Lone Star of Texas. The Texas declaration of independence was signed at Washington on the Brazos, March 2, 1836, after Santa Anna had begun the siege of the Alamo. Today was also observed the anniversary of the birth of Sam Houston, and there were special exercises at his grave at Huntsville, participated in by students and others.

## CONSTABLE IS SHOT BY WOMAN

Threatens to Use Revolver, But  
Fiercer and Assistant Ignore Her.

Chicago, March 2.—In an effort to serve an execution at the flat of Mr. and Mrs. Lawrence Baker, Joseph Slais, a constable, was shot and killed by Mrs. Baker. Adolph Blazek, an assistant acting with the constable as custodian, narrowly escaped the same fate.

Mrs. Baker insists that she was unaware that Slais was a constable, that no paper was read to her and no star or other badge of authority was displayed. The men made two calls at the house, on the first of which Mrs. Baker found Blazek sitting in her parlor. Blazek says he told her he was there as a "custodian" and that he would call the constable to explain matters. When they returned, according to Blazek's statement, Mrs. Baker flung open the door of her flat, and as they reached the head of the stairs she raised a revolver and threatened to shoot.

They continued to advance and Mrs. Baker fired three shots. One struck the floor of the little hallway, another entered the wall and the third struck Slais in the chest near the heart. As he fell he said:

"I didn't think you'd shoot, but you did."

Calls Mineworkers' Convention.  
Indianapolis, Ind., March 2.—W. B. Wilson, international secretary-treasurer of the United Mineworkers of America, has issued the official call for a special national convention to meet in Tomlinson hall Thursday, March 15.

## All of Louisville Unsaved.

Louisville, Ky., March 2.—Postmaster Baker has received a letter from Rutland, Pa., asking for a list of the "unsaved men and women" in Louisville. Baker at once sent the missionary the city directory.

## Violate Sunday Laws.

Uniontown, Pa., March 2.—Seven Baltimore & Ohio railroad engineers and conductors were fined \$4 and costs each for violating the Sunday law by running trains through Uniontown.

## Illinois Postoffice Is Looted.

Kankakee, Ill., March 2.—The postoffice at Grant Park was robbed Thursday morning of \$135 and a small quantity of stamps. Nitroglycerin was used to blow the safe.

## Two Negroes to Hang

Knoxville, Tenn., March 2.—Will and Andrew Upton, negroes, are to be hanged at Madisonville today. Their crime was the murder of Richard Johnson, an aged pensioner, in Monroe county early in January.

## PATTERSON RESIGNS FROM DUNN'S STAFF

Chicago's Commissioner of Public  
Works Hands In His Resignation Today

[By Associated Press.]

Chicago, March 2.—Commissioner of Public Works Joseph McCall Patterson has tendered his resignation to Mayor Dunne. No reason has been given, but it is rumored that Mr. Patterson is much annoyed at the manner in which Mayor Dunne interfered in his orders to clear Michigan avenue in the wholesale district of all sidewalk obstructions. Mr. Patterson was one of Dunne's warmest supporters in his last campaign and has been most thorough in his work of reform.

## The Real Reason

Patterson's letter of resignation was written and forwarded from Washington. It is a very lengthy communication and in it Patterson says he has become a socialist and resigns because the mayor's municipal ownership policy is not radical enough for his extreme views on that subject.

## M'CALL LEFT ESTATE TO HIS WIFE ONLY

His Fortune Has Disappeared, Until  
It Amounts to Only Twenty  
Thousand Dollars

[By Associated Press.]

New York, March 2.—The will of the late John McCall, former president of the New York Life Insurance company, was filed for probate today. According to the petition the estate is valued at "over twenty thousand dollars." It is left entirely to his wife.

## WILL FIGHT DUEL AS RESULT OF DEBATE

The Chamber of Deputies of France  
Have a Hot Session This  
Morning.

[By Associated Press.]

Paris, March 2.—In the chamber of deputies today during the course of the discussion as a result of the act requesting the war minister to allow officers to bring actions in civil court, the debate became most violent. M. Audray, a nationalist, and M. Jaures, socialist, exchanged abuse and their sittings were suspended. Later Jaures sent his seconds to meet the seconds of Audray to make arrangements for a duel.

## CLINTON W. WILCOX SUCCUMBS IN SOUTH

Sad News Received by Brother J. L.  
Wilcox Today—Died in  
New Mexico.

Word was received this afternoon announcing the death of Clinton W. Wilcox at Silver City, New Mexico. Mr. Wilcox has been in New Mexico for the past year seeking health and his mother, Mrs. Sue Wilcox, was with him when the end came. Clinton W. Wilcox was born in Janesville twenty-eight years ago and with the exception of a short residence in Chicago has made this city his home. He was until recently in the employ of the M. D. Wells Shoe company and contracted typhoid fever while on a southern business trip some two years ago. Complications set in and he was ordered to New Mexico for his health. His mother, Mrs. Sue Wilcox, and two brothers, John L. Wilcox and Edward Wilcox of Chicago, are left to mourn his loss. The remains will be brought here for burial. The sympathy of their many friends are extended to the sorrowing mother and brothers.

## JOHN R. WALSH ARRESTED ON A FEDERAL CHARGE IN CHICAGO TODAY

[By Associated Press.]

Chicago, March 2.—John R. Walsh, National Banker and treasurer of the Chicago National bank, which closed its doors some weeks ago by order of the comptroller of the currency, was placed under arrest today on a federal warrant, charging a violation of the banking laws.

Gazette wants reach 10,000 people.

BEFORE AND AFTER THE TRUST AND INSURANCE INVESTIGATIONS.

## BUILDING BOOM IN SOUTHERN STATES

Individuals, Business, Industrial and  
Ry. Corporations and Gov-  
ernments Investing.

[Special to The Gazette.]

Atlanta, Ga., March 2.—Among the many evidences of prosperity in all parts of the south is the activity in building operations by individuals, business, industrial and railroad corporations, and municipal, county and state authorities. The reported plans for railroad terminals at Key West, with the extension of the Florida East Coast line across the Florida Keys, has attracted wide attention because of its boldness and novelty. It is understood that the terminals, which will involve the expenditure of several millions, will occupy a site about a mile from the shore line proper, and now covered by from five to twenty-five feet of water. A warehouse and compress system to cost nearly a million dollars is being planned for Memphis. A new railroad depot is under construction in Birmingham, Ala., and other extensive local improvements are being made by the railroads in Laredo, Texas, and numerous other points in the south and southwest. In addition to these there are reports from every section of the south, telling of extensive building operations now in progress in the way of cotton and tobacco warehouses, hotels, municipal buildings, etc.

## JOSEPH W. POWELL, BEST KNOWN MAN IN METHODISM, IS HERE

To Assist in Rally Services in New  
Church—Will Conduct First  
Meeting in New Edifice  
Tomorrow Evening.

"The best known man in Methodism," Joseph W. Powell of Buffalo, N. Y., is in the city to assist the Janesville Methodist Episcopal society in their rally meetings, to be held in conjunction with the opening and dedication of the new Cargill Memorial office. The local church is fortunate in having this eminent layman with them. Mr. Powell makes a business of organizing churches and has been in it for twenty years. He gave up a large and lucrative wholesale business in Buffalo to enter the work and since that time has organized more churches than any other man in the country. Mr. Powell met with the ladies of the church this afternoon at three o'clock at the Baptist church. The Methodist society has vacated the Court street building and the glaziers are still at work in the new building. It is expected that the building will be completed by tomorrow and the first meeting is to be held at half past seven. Mr. Powell will meet all the workers at this time.

## JOHN R. WALSH ARRESTED ON A FEDERAL CHARGE IN CHICAGO TODAY

[By Associated Press.]

Chicago, March 2.—John R. Walsh, National Banker and treasurer of the Chicago National bank, which closed its doors some weeks ago by order of the comptroller of the currency, was placed under arrest today on a federal warrant, charging a violation of the banking laws.

Gazette wants reach 10,000 people.

## LOOK OUT, CASTRO, A REVOLUTION STARTS

The Revolutionists Concentrate Their  
Forces Upon the Island of  
Trinidad.

[By Associated Press.]

Paris, March 2.—According to information which reached official quarters here a revolutionary movement against Venezuela is on foot. The revolutionists are concentrating on the island of Trinidad awaiting arms and supplies, previous to landing on the Venezuelan coast.

## ARE TO GATHER IN THE ETERNAL CITY

World's Sunday School Convention  
Arouses Interest Though a  
Year Distant.

New York, March 2.—Although the date set for it is more than a year distant, Christians all over the world have begun to manifest interest in the World's Sunday School convention to be held in Rome in May of next year. The convention in the City of Jerusalem in 1904 was largely attended, but it is anticipated that the convention of next year will surpass any previous world's Sunday school gathering so far as attendance is concerned. More than 3,000 delegates from all over the world will go to the Eternal City, according to present indications, and three ships will be chartered for the American delegates. The general subject that will be taken up at the convention will be "The Duty of the Whole Church to Preach the Whole Gospel to the Whole World." The first meetings will be held in the largest theatre in Rome. Many prominent workers from various lands will attend and address the delegates. The foreign delegates will be the guests of the Italian National Sunday School committee. The world's convention was organized in London in July, 1899. It included members of London Sunday School union and the International Sunday School Convention of America. Edward K. Warren of Three Oaks, Mich., is the international president and Dr. George W. Bailey of Philadelphia the secretary.

## SPRINGFIELD QUIET; RIOTERS DISPERSED

Ohio Town Passes Stage of Dangerous  
Feeling Towards the  
Negro Residents.

[By Associated Press.]

Springfield, O., March 2.—Last night passed with no repetition of the riotous scenes of the two previous nights in this city.

## WESTERN KANSAS; GENUINE BLIZZARD

Strong Wind and Drifting Snow Cause  
Much Trouble on the  
Railroads.

[By Associated Press.]

Kansas City, March 2.—A severe blizzard raged today in western Kansas. A strong wind drifted the snow and played havoc with the telegraph and telephone wires.

## NOVEL METHODS MET DISASTER

Ft. Smith, Arkansas, Banker's Finance Was  
Fatal To The Interest In Bank.

## ONLY \$94.80 TO PAY \$80,000 WORTH

Of Depositors--High Finance That Was Not Understood  
By The Other Bankers Of The Southern  
Community.

[By Associated Press.]

Fort Smith, Ark., March 2.—The Southern Bank and Trust company failed here Thursday, owing its depositors \$80,000 and having only \$94.80 cash on hand. It is announced that Thomas Neal of Fort Smith will pay all depositors in full and reorganize the bank.

The bank was founded a year ago by C. C. Waller, and its history makes an interesting piece of financial literature.

C. C. Waller came to Fort Smith about a year ago, and announced that he was going to establish a bank for the purpose of making loans at a legal rate of interest. The banks here were charging from 8 to 10 per cent. He spoke of the plentifulness of money in the east at 4 and 6 per cent, and intimated that the local financial institutions were robbing the people.

Waller leased a fine brick building and fitted it up with extensive fixtures. The bank was organized with an ostensible capital of \$500,000. A few local business men subscribed to small blocks of stock. But the majority of the stockholders, as well as the directors and clerical force, came from Dallas, Texas.

Puts Out Little Banks.  
When the bank doors were thrown open there was no rush of depositors. A feature was made of the savings department, and solicitors canvassed the city for patrons, distributing the little savings banks, which can only be unlocked by the banks placing them.

Then Waller made a mysterious trip to the east and upon his return announced that he had made connections with eastern financial institutions, the aggregate capital of which was something in the neighborhood of \$10,000,000. He declared, too, that he had bought a bank at Booneville to add to his chain of financial institutions.

Frequent changes were made in the directory, which were explained by the statement that they were necessary as fast as other banks were taken over in order that those banks might be represented.

Rivals Precipitate Crash.  
Finally the other Fort Smith banks refused to accept checks on the Southern Bank and Trust company because of a want of promptness in making exchanges. This refusal soon became public property and created such adverse comment that from that time on the fate of the bank was sealed. The small depositors began to withdraw their deposits and no new ones were being acquired. Loans good and bad had been made and the amount of cash on hand to meet the demands of current business was slowly diminishing.

Then the crash became inevitable. The bank did not open Thursday morning, for in the vault there was but \$94.80 in cash to meet the daily demands.

## "LABBY'S" DAUGHTER GREAT NORTHERN IS COMING ON A VISIT NOW IN THE CONTROL

Toast of London Several Years Ago  
and Wife of ex-Italian Premier  
To Be in America.

[By Associated Press.]

London, March 2.—America is soon to receive a notable and interesting visitor in the person of Marchesa di Rudini, the beautiful daughter of Henry Labouchere. As Dora Labouchere the Marchesa was the toast of London a few years ago. She is a strikingly handsome brunette, almost Spanish in type, with intensely dark eyes, full of vivacity and charm. She is clever and well educated, speaks five languages perfectly and has a most charming wit of her own. Furthermore she will become one of the richest young women of England upon the death of her father, whose only heir she is. It is not generally known that Mr. Labouchere's wealth reaches well up into the millions, but such is the case. He inherited a great fortune many years ago, and since then everything he has touched has turned into gold. His daughter was married a little over two years ago to the Marquis Carlo di Rudini, son of the ex-Italian premier.

## ILLINOIS MINE OWNERS TO MEET ON WEDNESDAY NEXT

Will Assemble In Chicago To Fully Discuss  
The Question Of The  
Strike.

[By Associated Press.]

Chicago, March 2.—Mine owners of Illinois will meet here at 10 o'clock next Wednesday morning to decide on their attitude toward the demands of miners. The call was issued Thursday by the Illinois Coal Operators' association through its commissioner, Herman Just.

At the conference the Illinois operators will select their delegates to the conference of the mine owners in the competitive states, which is to be held in Indianapolis March 19. These delegates will practically receive their instructions at the Chicago meeting.

It was stated by one in authority that the chances are the Illinois delegates will oppose concessions of any kind. While the Illinois operators are as anxious as those of Pennsylvania, Ohio and Indiana, the other states which will be represented at the conference, to avoid a strike, they have more grievances against the miners.

Mining Expenses Increase.  
Even at the present time they are at a disadvantage as compared with the operators in other states, as the cost of operating their mines has been arbitrarily increased by the passage

be unlocked by the banks placing them.

Then Waller made a mysterious trip to the east and upon his return announced that he had made connections with eastern financial institutions, the aggregate capital of which was something in the neighborhood of \$10,000,000. He declared, too, that he had bought a bank at Booneville to add to his chain of financial institutions.

Frequent changes were made in the directory, which were explained by the statement that they were necessary as fast as other banks were taken over in order that those banks might be represented.

LAND OF PROMISE  
IS NOW REVEALEDSOUTHWESTERN TEXAS CAN  
GROW EVERYTHING THAT GROWS

## ANOTHER EXCURSION THERE

Fish, Lee and Fish of Evansville  
 Will Conduct a Party There  
 on Tuesday Next.

So great has been the interest evinced in Texas, southwestern Texas in particular, in the past few months that Messrs. Fish, Lee and Fish of Evansville plan to conduct another excursion to this wonderful country on Tuesday next, March sixth. The price made for this trip, round trip, is thirty dollars and fifteen cents and aside from the wonderful sights to be seen the cost of the trip is most moderate. Texas is a vast expanse of "country" and southwestern Texas, situated on a high plateau, is one of the most healthy spots on the American continent.

A Great Trip  
 Northern people talk about "going to Texas" as European emigrants talk of going to America—they speak of it as a locality rather than an empire. Did it ever occur to you that there are counties in Texas as large as some northern states? Wisconsin is a good sized state of the union, and yet, very nearly five states as large as Wisconsin could be accommodated within the hospitable borders of Texas.

Its Immensity  
 The very immensity of Texas is frequently a handicap to her. You would call it foolish for a New Englander to say that the climate of Wisconsin was bad because a friend of his in Ashland had written him that it sometimes becomes very cold up there. You would not think much of the intelligence of a man who would tell you that peaches will not do well in Wisconsin owing to the east winds that prevail every spring. And yet, ignorant people judge Texas too often by what they hear of a small corner of a state whose area is 268,242 square miles.

Mere Facts  
 While certain general statements might be made with reference to Texas as it would be as nonsensical to speak in sweeping terms of the climate, topography, fertility, peculiarities, and characteristics of the state as it would be to make general statements about Europe, Asia, Africa, Australia, or North and South America.

Varied Advantages  
 There are great stretches of country in Texas where all the advantages of the marvellous state may be found in combination, and these are immense districts which offer particular advantages to certain classes of emigrants—but asked to advise middle western and northwestern people what part of Texas to go to in order to find splendid soil, climate, social conditions, educational advantages, opportunities for making money in almost every calling—who are looking for chances to grow up and get rich with a country that is growing up and getting rich at a rate unparalleled in our history—tell them to settle anywhere in that part of Texas which is tributary to San Antonio in Neeces county, for instance. And the sooner you get there the better will be your chances, not of getting rich quick, but of getting rich sure.

Waste of Time  
 It would be a waste of time to speak of the climate of the country of which Alice is the commercial, industrial, educational and social center, because tomes have been written about the health giving properties of the sunshine and air of this district. From a practical viewpoint, the best evidence that can be given in support of the contention that the climate is peerless is that any cereal, fruit, or vegetable that can be raised in any part of the United States not only grows but grows abundantly in southwestern Texas.

A New Country  
 Southwestern Texas is as new today as Kansas, Nebraska and the Dakotas were twenty-five years ago. Because the country is new—and not for any other reason—lands are as cheap down there today as they were in the states mentioned a few years ago, and they will not remain cheap any longer than they remained cheap in Kansas, Nebraska and the Dakotas, nor as long, because none of the hardships which beset the early settlers in the west and northwest await the agriculturist, horticulturist, truck gardener, or stock raiser in southwestern Texas.

Greatest Artesian Well Belt  
 The most desirable lands of Texas are those in the district in which all that is best in climatic and soil conditions are combined. And nowhere in the state are these conditions more perfect than in the country surrounding San Antonio and Alice. It seems to have been designed by Providence to meet not only all the needs but all the ideals of the agriculturist. Whatever of moisture may be lacking above is provided in abundance below. The lands for scores of miles in every direction around San Antonio when tapped produce water in abundance. Most of them are in the greatest artesian well belt known to mankind.

Gushing Streams  
 Gushing streams, sufficient to irrigate a plantation all the year round, were it necessary, may be secured on these lands for the boring. Where the expense of driving for a natural artesian flow is a hindrance, the farmer can secure at small cost an ample supply of water by the use of an ordinary windmill. In no part of the country is the farmer less dependent upon the fickleness of the seasons.

Always a Market  
 If the cereals are down in price, if New Orleans or New York is "bearing" cotton, or if for any reason, the demands of the big cities for early fruit, berries, and vegetables has fallen off, he need not sacrifice his year's work in order to meet his current expenses.

No Limitations  
 In southwestern Texas the limitations of farming in the northwest are unknown. The entire range of agriculture has before the husbandman. When the prime crops are in, or before they are in, and in fact while

March 2, 1863—Forty-three years ago today the Confederates were defeated in a skirmish at Eagleview, Tenn.  
 Find another soldier.

## CURRENT ITEMS

At the Skating Party: About forty people on pleasure bent attended the weekly roller skating party at the rink last evening. Music was furnished by the Imperial band. Manager Connors expects to convert the rink into a vaudeville theatre about March 15.

Denied Them Divorce: On motion of the plaintiff's attorney, the Green county divorce suit of Mrs. Sophia Ackerman vs. Arnold Ackerman, which was sharply contested at the last term of the circuit court, has been dismissed by Judge B. F. Dunwiddie.

No Cash for Politics: When the democrats of Madison's sixth ward endeavored to persuade Fred Rentschler, formerly a well-known florist in Janesville, to become a candidate for alderman, he declined on the ground that whereas he was willing to become a member of the council, he was not willing to mix in dirty politics to the extent of spending five cents for the campaign. They are still hoping he can be prevailed upon to change his mind.

Meeting of State Bar: President A. A. Jackson of the State Bar Association of Wisconsin will preside at the annual meeting which is to be held in the federal court rooms in Milwaukee on Tuesday and Wednesday, March 13 and 14. The session will begin Tuesday evening and will close with a banquet of the state and Milwaukee associations at the Plankinton, Wednesday night.

Judge James G. Jenkins, who is about to retire from the bench and supreme court justices of the federal courts will be guests of honor. The speakers at the opening session will be: A. A. Jackson, Secretary of the Treasury; Leslie M. Shaw, Chief Justice John E. Caspary; James Hamilton Lewis of Chicago, and State Senator John M. Whitehead.

Janesville Assembly: Local Americans hold a very interesting meeting last evening and initiated a class of candidates. Deputy Bertha A. Whitlock of Michigan was present and helped in the literary work. Refreshments and dancing followed the ceremonial and closed the evening's festivities.

Daughter Born: Mr. and Mrs. Alton Pierce announce the arrival of a baby daughter. Mr. Pierce is a fireman at the Spring Brook fire station.

## FUTURE EVENTS

Hi Henry's Minstrels at the Myers theatre Friday evening, March 2.  
 Watertown and Janesville High school basketball teams play at local gymnasium at eight o'clock tonight.

THAT FANTASTIC GYPSY BONNET

Those great big dopping plateaux or fine straws of various weaves are a treasure trove to the milliner with ideas and fingers deft enough to carry out her conceptions to success. One of the most fetching novelties that have been displayed for a long time is that gypsy bonnet pictured. The original was designed by a famous Fifth avenue outfitter, who deals exclusively in children's stuff, and who acknowledges that the little customer for whom the first one was made was the inspiration of the design. The plateaux is in a dull green shade of panama, all hand-woven, the green being somewhat upon the grayish sage order. The shape is bent fantastically, its fluted folds caught to the velvet-covered headpiece that makes it set well and comfortably upon the head. Pale blue satin ribbons harmonize prettily with the grayish-green of the straw and display one of the most favored of the new color combinations. Wreaths of dark green foliage with little snow berries and close bunches of white snowball flowers go to its trimming, and there are old-fashioned-looking strings of the same shade of pale blue moire ribbon coming from the sides to the front.

REGENERATING CHICAGO  
BY  
DR. A. P. BURRUS.

I am prompted to pen this brief essay because Chicago is the great center of commerce for the northwest.

The northwest ships all its produce, or the principal part of all its productions, to Chicago and buys most of its supplies in that city—coal, hardware, groceries, dry goods, clothing, farming tools and every thing else. But no man feels safe when he goes into Chicago to sell his grain or stock or to buy his supplies. He feels that he is in danger of being robbed or murdered at any step. Neither is he safe when he retires to sleep in his hotel. If he takes a drink he is in great danger of being drugged and thrown into the street.

The great Northwest feels a deep interest in the welfare and prosperity of Chicago because it is a part of the Northwest. It is the head and center of prosperity. Therefore we wish to make it a safe city where we can sell our products, spend our money and buy our supplies without the fear of being robbed or assassinated by day or night. Demoralization in Chicago demoralizes the whole great Northwest and our welfare is linked in with the fate of Chicago. To prove that Chicago is rapidly degenerating morally and mentally I only need to refer to the daily papers of that city.

Causes of Degeneration.  
 I have shown in a previous essay that wars cause national degeneration by killing off all the best young men and leaving all the criminals and roughs at home to propagate the human race.

Behold Russia, which was one of the strongest nations in the world, now ruined and prostrated by war. Small wars between labor and capital, and political wars have the same evil tendencies. War in the family and divorce is ruinous to the family.

It has been reported that during the late strike in Chicago both parties hired singers. What could be more demoralizing in a great city that boasts of its superior universities and tall churches, and of being the most enterprising and civilized city in the world? Chicago is a great city, its citizens tower higher towards heaven than ever Babe's temple did. But greatest of all is it in thieves, holdups, robbers and women murderers.

One of the principal causes of degeneration is that the devil has more schools than the Lord has churches and is educating a larger army. Satan runs his schools both right and day every day in the week, so that now the devil's army is in the majority and every criminal has a league with the devil and his lawyer; so that only one murderer out of forty is convicted, the rest all escape. The proportion of thieves and robbers convicted is about the same.

The largest number of criminals are made during the night between the hours of 10 p. m. and 3 a. m. It is during these hours that the saloons, wine-rooms, dances, theatres and houses of ill-repute are in full blast. These are the hours that in which nature designed us to sleep. Had nature designed us to live an owl's life, our eyes would have been put in our heads. There is no greater cause of insanity than going without sleep. No man can attend to his business properly with less than 7 hours sleep; while 8 or 9 are more favorable to long life with sound brains.

The daily papers have told us how the devil's schools are conducted so that I do not need to repeat it in detail.

The methods used to reform criminals in Chicago are a perfect failure. Keeping them in prison for a brief season and then turning them loose on society does not reform them.

How Criminals Degenerate.  
 They have to wait a long time in prison before trial. It takes from 30 to 60 days to get a jury, and as long to try them. Then long delays for new trials and the long-winded lawyers run their cases through the last courts. The consequence is, the prisons are overrun, and their board bills bankrupt the city, so there is no money to pay more police.

How to Regenerate Chicago.  
 It is not so much the need of more policemen as to diminish the number of criminals and have expeditious and speedy trials. 2,000 years ago Christ was arrested on Thursday night at 12 p. m., tried the next morning at 9 a. m., sentenced at 12 and executed at 3 p. m. the same day. Wicked men should have as speedy trials.

There are two methods of regenerating Chicago which will make Chicago a clean and safe city. Above all other things, first close up all saloons and dance halls, theatres, gambling dens, and all dens of in-lame that harbor and educate criminals, ask the devil's schools at 10 p. m. That will be a great and sure step in the right direction. The second step should be to exile all notorious thieves and holdups. The onslaught now going on to drive them out of Chicago will only drive them to other cities and they will surely return like the spring robin. What then shall we do with them? Sentence every able bodied criminal to work on the Panama canal from 5 to 15 years, let every pick-pocket and flat burglar go and help dig the canal and make them useful to this country. All the prisons in the United States should be emptied and the men sent to Panama. If there is a surplus, send them to Alaska and put them in the gold mines and let them have 25 per cent of all the gold they mine.

No better method to make a clean city and reform criminals could be devised.

They should not be pardoned or paroled without giving reliable bonds for future good behavior. The press and the pulp of the Northwest should join hands with Chicago to accomplish this most desirable end.

## ELGIN BUTTER MARKET

(Special Telegram.)  
 Elgin, Ill., Feb. 26.—There were no sales or offerings of butter on the board of trade today, the market being quoted at 28 1/2c, an advance of half a cent from last week. The output for the district was 417,000 lbs.

## DEATH BY INDIGESTION

A Long Train Of Fatal Ills Is The Direct Result Of Undigested Food.

Undigested food, by fermenting, forms a poison in the stomach, and this is absorbed in the blood. If this goes on very long, and your heart happens to be weak, you'll be found some morning dead in bed, or you may fall back down the stairs about an hour and a half after dinner, and the doctor will call it heart disease. Yes, that may be the result, but not the cause. The cause is indigestion. Indigestion is a simple, common word, but it has a terrible import.

And so you may get apoplexy, and die suddenly while you're standing. If you have a weak liver, the poison of undigested food will attack it and you will get jaundice. If you have weak kidneys, you will get Bright's Disease or diabetes, from which there is no rescue for any man.

It was a learned physician who said that the progress of a race depended upon the stomachs of its members. And you have a some time in your life eaten a heavy meal, or eaten in a hurry, and felt that "lump of lead" immediately afterward. That lump of lead is a hard ball of undigested food. The stomach can't digest it, and finds it hard to throw it out. And so it sours, and it makes you sour and everybody sour who talks with you. If gives you a bad breath and is building for you the road to dyspepsia and death, unless you stop it.

Stop it with Stuart's Dyspepsia Tablets. Just think, these little tablets are every bit as powerful as the gastric juice in your stomach. One grain will digest 3,000 grains of food. Isn't this wonderful? And it is true, just try it, and prove it. If you have any brash, gas on the stomach, fermentation, burning, bloating, bloaty feeling, indigestion, dyspepsia, or heartburn, Stuart's Dyspepsia Tablets will make it disappear before it can do any harm to your heart or other organs.

They will invigorate the stomach, relieve the stomach of two-thirds of its work and give it a chance to rest. They will increase the flow of gastric juice, and if you will ever "live" in your lifetime, it will be after you have eaten a good, hearty meal, and taken one of these little tablets immediately afterward. You'll just feel fine.

Take Stuart's Dyspepsia Tablets after your next meal today and you will see them work over afterward. You will be cheerful, vigorous and your mind will be clear, you'll have snap and vim, and add many a day to your life.

You can get these wonderful little tablets at any druggist's for 50c a package.

**ASLE J. GRØNNA—CONGRESSMAN FROM NORTH DAKOTA**  
Asle J. Grønna of Lakota was born at Elkader, Iowa, December 10, 1858. When he was two years old his parents moved to Houston county, Minn., where he was brought up on a farm. He taught school for two years at Wilmington, Minn., and then moved to South Dakota in 1879. Here he farmed and taught school. In 1880 he moved to Buxton and in 1887 to Lakota. He is a merchant and banker and is also a farmer. He was a member of the state legislature in 1889 and has held several other political offices. In 1894 he married Miss Bertha M. Ostby and has two sons and three daughters.

## = FORTY YEARS AGO =

Jamesville Daily Gazette, Friday, March 2, 1866.—Messrs. Editors:—Do the parents of those boys of 10 or 11 years, who hang around the corner of Main and Milwaukee streets, amuse themselves by inserting their hands in the pockets of passers-by, know how they employ their time?

Good Bye.—"Now is the winter of our discontent made" capricious spring. We part with the frost king with tearful eyes, and go marching on toward green fields, blooming flowers, singing birds and balmy breezes, happy in the anticipation of the "glorious summer" that lies just beyond.

Secession Spirit Stimulated by the Veto.—A Washington dispatch of the 27th to the Chicago Tribune, says:

"Sons and Daughters of the South."

**J. M. POSTWICK & SONS.**

**\$2 for a SKIRT.**

JUST consider what it means to be able to buy a suit for \$2.00, a ready-to-wear suit, good material, nicely trimmed with braid, Scotch mixtures, suitable for a school girl, and very much better than any number of suits to be seen worn every day by school children. First to come get them, but there are not many.

**\$2 for a Skirt.**

Colors gray, blue, black, made to sell for much more, well made too, and plenty good enough to wear about the house to save better skirts. What kind of material can one buy for \$2.00?

**Spring Garments.....**

are arriving and we are anxious to close out all Winter Suits as we need the room. A few extra good Suits, black, blue, brown, values \$15 to \$25, we offer at \$5. Other Suits in mixtures, were \$8 to \$12 at \$3.00.

**Rarest kind of Bargains in Cloaks.**

for Women, Misses and children. People who have to economize can save many dollars by taking advantage of present figures on WINTER GARMENTS. Or, may never have such another opportunity as we work harder every year to sell out our stock so as not to have any garments to sell at such a loss. The class of CLOAKS we offer are not "junk" but clean, well made, slightly cloaks that no one need be backward about wearing.

**INVESTIGATE!**

It is currently reported among parties recently returned from the South and by parties conversant with inside affairs of the secession population of Missouri, that a new secret society has been started in Mississippi, and is rapidly extending to other sections, styled "The Sons and Daughters of the South." It is a Quixotic affair, of course, the leading principle is non-intercourse with the North. They define what this course is and declare it is treason to the society to eat, pray, dance, sing, trade with or patronize a Northerner. The oath and pass-words are said to be perfect. While doubting the entire truth of this society, it seems to me, says a correspondent in such a shape that something of the kind has been attempted by the defeated rebels in Dixie. It will prove successful in raising a new crop of Northern dough-faces in the South, but it will not very materially hasten reconstruction.

The reluctant advertiser, who has to be "persuaded" before he will risk even a half-advertised campaign, is described by a great writer in this way: "We do what we must and call it by the best names we can, and would fain have the praise of having intended the result which ensues."

Remember to be good for this is Lent.

Rockefeller has not yet been discovered.

Mrs. Yorkes-Mizner has changed her mind—but it is too late now.

Cuba should look at the horrible examples of the neighboring republics and beware of the revolution habit.

France and Germany should both beware of making their bluff too strong they might be called some day.

When a city government itself issues "permits" to break the law what are you to expect from its criminal element?

Aldrich may wish he had not been quite so funny when his corporate bosses come to call him down for the blunder.

As the increased output of eggs shows, the American hen is doing her share to expedite the pure food movement.

A trolley car in St. Louis was stuck all night in a snowbank. It must be dreadful to have such a frigid climate.

Britain is not mixing up in the Chinese affair, having learned a valuable lesson in South Africa a few years ago.

Courts may order Rogers to answer, but they cannot make him perform its work at the right time.

Harriman is a busy man and so how could he be expected to remember to pay the interest on a small sum like \$500,000?

Henry James' comments on American pronunciation of English may be classed with the more readable of his efforts in fiction.

As it rained furiously during the Kaiser's silver wedding celebration the Berlin waiter man is probably due to lose his job.

Madrid will have to work overtime if it means to provide wedding festivities on a scale rivaling those at Washington and Berlin.

China appears to be having a monopoly on the war news just now but watch that Balkan war cloud come up over the horizon.

Whether it is the five dollars or what there is a list of candidates out for the city offices this spring. The more the merrier.

There seems to be a growing demand for a special system of railway service providing a convenient, unbroken trip between Pittsburg and Sioux Falls.

Senator Tillman might like to have it noticed just now that nobody ever accused him of acting as a political bootblack for the railway corporations.

With genuine sympathy the nation listens to the navy department's mournful announcement that the dry dock is afflicted with a serious case of loose rivets.

As to the Algoliras conference, Portsmouth, N. H., would like to have the world observe that there is only one town in which to hold successful peace negotiations.

If Attorney-General Hadley of Missouri crowds his inquiry too far Rogers may yet follow the example of his illustrious chief and vanish from view completely.

Conductors on the New York, New Haven and Hartford railway are now compelled to wear their caps straight on their heads and strict orders forbid that they be tipped on one side or too far forward or back. Another phase of the anti-tipping crusade?

LEATHER MANUFACTURES.  
Exports of leather and leather manufactures from the United States during the calendar year 1905 were the

largest on record, being valued at \$38,946,422, against \$35,324,492 in 1904, \$27,169,614 in 1900, and \$12,275,470 in 1890. The growth in this feature of the foreign commerce has occurred chiefly during the past decade, especially the last half of that period. As far back as 1885 the exports under this head had reached a total of practically 10 million dollars, and they ranged between that amount and 19 millions up to about 1897, since which date they have more than doubled.

The exportations of leather and leather manufactures, as classified by reports issued by the Department of Commerce and Labor, through its Bureau of Statistics, fall under three principal heads: Sole leather, upper leather, and boots and shoes. About one-half of the total is in the form of "upper leather," for use in the manufacture of boots and shoes, and about one-fourth is represented by boots and shoes and sole leather, respectively. Harness and saddle show a total of a little over a half million dollars, and other leather manufactures 1-1/3 million dollars.

Exports of boots and shoes have increased about 4 million dollars since 1900. There has been meantime, however, a noticeable change, as to the destination of this class of exports. In 1900, British Australasia led all other countries as a market for American boots and shoes, while the United Kingdom was the only other country to which we sent a value in excess of one million dollars. In 1905 four countries showed a total of more than one million dollars. To the West Indies and Bermuda the exports in 1905 were \$2,000,324 in value, against \$1,535,909 in 1904 and \$572,906 in 1900; to the United Kingdom, \$1,892,515, against \$1,094,672 in 1900; to Mexico, \$1,434,902, against \$350,964 in 1900; to British North America, \$1,059,321, against \$400,021 in 1900; while to British Australasia, which led all other countries in 1900, with \$1,238,416, the total exportation last year was but \$385,652. Other countries to which we exported boots and shoes to the value of \$100,000 or more in 1905 were, France, \$100,357; Germany, \$93,357; Central America, \$815,559; Philippine Islands, \$212,435, and British Africa, \$186,597. The total exportation of boots and shoes in 1905 was \$8,650,012, compared with \$7,319,775 in 1904 and \$4,626,250 in 1900.

Sole leather exported from the United States goes principally to the United Kingdom and Japan, while Belgium, Netherlands, Denmark, and Canada are also important markets. There has been a general decrease in exports of sole leather to Europe, but the gain in exports to Japan has been sufficient to bring the total above that of any preceding year. In the calendar year 1905 Japan is credited with \$3,406,774, against \$2,227,377 in 1904 and \$386,745 in 1900; the United Kingdom, with \$4,455,372, against \$5,622,475 in the preceding year and \$4,960,378 in 1900; and all other Europe with \$531,180 in 1905, compared with \$558,284 in 1904 and \$734,732 in 1900. To British North America in 1905 we exported \$142,961 worth of sole leather; to unspecified countries of Asia, \$68,579, and to British Africa, \$49,708.

Upper leather, as above indicated, supplies more than half of the total exportations of leather and leather manufactures. Under this head the largest value appears in the class designated as "splits, buff, grain," for which the total in 1905 was \$10,185,505, against \$14,838,239 in the preceding year and \$11,750,615 in 1900. Grained kid showed in the calendar year just ended a total of \$1,402,736, the lowest point touched since 1899.

The destination of exports under the various grades of upper leather is not shown separately, but only for the general group "upper and other leather except sole leather." This group as a whole shows a steady increase, the value of last year's exportations being stated at \$19,667,702, compared with \$18,025,204 in 1904 and \$14,775,399 in 1900. To the United Kingdom the exports under this head were valued at \$10,954,009 in 1905, against \$11,097,975 in 1904 and \$9,533,691 in 1900; to Germany, \$1,444,765, against \$991,137 in 1904, and \$851,793 in 1900; to France, \$844,142, against \$448,976 in 1904 and \$472,826 in 1900, and to other Europe, \$2,445,038, against \$2,569,752 in 1900. To Japan and other countries of Asia, and Oceania the increase is strongly marked, the total for 1905 being \$1,229,585, against \$468,903 in the preceding year and \$84,574 in 1900.

To British Australasia there has been a decrease, the total for last year having been \$531,569, against \$807,686 in 1904 and \$634,128 in 1900. To nearly every other country, however, the exports of upper leather are increasing. To Cuba they have increased from \$42,464 in 1900 to \$267,530 in 1905; in the same period the exports to Argentina have increased from \$101,901 to \$306,064; to Central America, from \$38,117 to \$158,455; to Brazil, from \$99,502 to \$133,542, and to Mexico, from \$28,837 to \$98,055, while increases also occur in the exports to the West Indies, Colombia, Venezuela, and other South American States.

While the United States is now exporting leather and leather manufactures to the value of nearly 40 million dollars annually, it is still importing leather and manufactures thereof in no inconsiderable quantities. In the year which ended with December, 1905, our total imports under the above head aggregated \$12,952,519, against \$10,870,214 in 1904 and \$13,297,796 in 1900. The principal articles under this class were gloves of various grades, \$5,224,437, about two million dollars' value each coming from France and Germany; and a little over one million dollars from other Europe; skins for Morocco, \$2,

### BAKING POWDER

Good health depends mostly upon the food we eat.

We can't be healthy if we take alum or other poison daily in our food.

Dr. Price's Baking Powder is absolutely free from alum. It is made from pure cream of tartar and adds to the healthfulness of the food.

PRICE BAKING POWDER CO.  
CHICAGO.

NOTE.—Baking powders that are sold at ten to thirty cents a pound, or a cent an ounce, are made from alum. Avoid them.

## LARGE TRANSFERS OF PROPERTY ARE MADE

Over Sixty-Two Thousand Dollars' Worth of Transfers Filed Yesterday.

Over sixty-two thousand dollars' worth of real estate transfers were recorded at the Register of Deeds office in the past twenty-four hours. \$19,552.50 was the largest sum paid, \$12,000 for another, \$10,000 for a third and so on down to one dollar. The following is the list:

Patrick Barrett et al to Harry Walton: \$1000 e/4 w/4 sec. 8 & w/4 sec. 14 w/4 sec. 17 & n/4 sec. 17-2-11.

Charles J. Wohler and wife to William H. Jordan: \$3200 e/4 w/4 sec. 20-2-12.

Harry Walton and wife to Perle S. Dean: \$2000 w/4 n/4 sec. 8-2-11.

Leola C. McGregor, to Charles J. Wohler: \$3000 e/4 w/4 sec. 19-2-14.

Charles W. Schmalzing and wife to R. C. Whitmore et al: \$12,000 e/4 w/4 sec. 1-2-14.

R. C. Whitmore and wife to Charles W. Schmalzing: \$12,000 e/4 w/4 sec. 13-2-14.

Frank Kiesel and wife to Lou Kronse: \$750 lot 14-2 Ball's Add. Beloit.

Landsverk: \$7200 e/4 w/4 sec. 1-2-14.

Rice Kimble and wife to E. K. Keyes: \$3000 w/4 w/4 sec. 5-2-11.

Stella M. Boss to Reia I. Couch: \$1 lot on n/4 sec. 34-4-12.

George S. Burdick and wife to Stella Boss: \$1 lot on n/4 sec. 34-4-12.

C. S. Jackson and wife to C. N. W. Ry. Co.: \$10,000 s/4 sec. 7-2-13.

Joseph Pickard and wife to Alphonso Collins: \$4300 e/4 w/4 sec. 33-4-11.

Louise C. Peet to F. M. By: \$500

lot 6-2 Peet & Salmon's Add. Beloit.

Louise C. Peet to Carl L. Sherwood: \$500 s/4 lot 6-2 Peet & Salmon's Add. Beloit.

William J. Tracey and wife to Halfdon Christensen et al: \$4700 e/4 w/4 sec. 17 & s/4 sec. 19.

Proves That Senator From Ohio Introduced in Former Congress Measure for Same Thing He Now Commends in House Bill.

Washington, March 2.—"There is a storm brewing" and the time is approaching when the citizens of the United States will make an inquiry into the right by which some men in a few years make hundreds of millions of dollars, rendering them capable of even overshadowing the national government. If congress does not agree upon a bill for the regulation of the railroads the country will be called upon to face the problem of governmental ownership.

Senator Dolliver, squelched this warning in the senate Thursday near the close of an eloquent speech in support of the Dolliver-Hepburn railroad rate regulation bill. For two hours and a half he talked earnestly on the subject, holding the close attention of a large audience, and when he ceased speaking he was applauded vigorously from the galleries.

Right to Regulate Roads.  
A reply to the attack made Wednesday by Senator Foraker occupied a large part of Mr. Dolliver's time, and by penetrating the obscurities of ancient history he proved that the right of governments to regulate the fees of carriers was established contemporaneously with the pyramids.

He also proved that the senator from Ohio introduced in a former congress a measure providing for the same thing he now condemns in the bill passed by the house.

Emphatic resentment was expressed by Senator Dolliver against the sneers pervading the corridors of the capitol that the friends of the pending legislation were acting in response to a hasty agitation augmented by the enthusiasm of another branch of the government. Radicals might have attached themselves to the movement, he said, but if there had been politicians who made poli-

ties their business, there also, were business men who made business politics. Some persons might proclaim against advocates of the movement who had been enticed by the blandishments of the popular magazines or by the flattery of the Chautauqua salute, but he said, there were others who had felt constrained to unload their railroad securities to fit them spiritually for the discussion of the proposed legislation. This latter thrust, aimed at Senator Lodge, caused the senate to smile almost audibly.

Strengthens the Law.  
The senator then outlined the bill, pointing out wherein it amends the existing interstate law, saying that, after all, the changes were comparatively few. "Instead of undermining the law the bill fortifies it," he said. "If the present law had been treated with the reverence and sanctity it deserved the American people would have approached the subject in a frame of mind different from that which now prevails."

Judge Grosscup's recommendation for a specific court was discussed, but Mr. Dolliver did not accept the theory advanced for the reason that he considered the present machinery sufficient for all purposes. He recognized the fact that it had become fashionable to speak slightly of the interstate commerce commission, attacks. He expressed the opinion that if the lawyers had dealt as fairly with the commission as with the courts the result would have been better.

Wants ads mean business.  
Do the business. Want ads do.

Royalty Incognito in London.  
The police of London can boast that their town entertains unknowingly more royal folk than any other in Europe, and without an accident befalling any of them. Once upon a time a German princess did sprain her ankle as she came down from the top of a bus, but that is the most serious casualty that ever befell a personage visiting the town unofficially.

The One Cardinal Fault.  
"She's really not cultured, she says she can't understand Browning at all." "But one may be cultured and yet not understand Browning." "Of course, one may not understand it, but one should never admit it." Philadelphia Ledger.

Bird Builds Biggest Nest.  
The mound bird, found in Australia, builds the biggest nest in the world. It makes mounds sometimes as great as 150 feet in circumference, in which it buries its eggs five feet deep.

Love, the Magician.  
Love is the great magician, who alone can work miracles. It lives on throughout all change, fitting itself to altered circumstances, and triumphing in the end over fate, over death itself.

D. L. Moody's Brother.  
George F. Moody, the eldest brother of Dwight L. Moody, was a lifelong helper of the famous evangelist, especially in the work of the Northfield schools, and a man of genuine friendliness of feeling, and of deep, though quiet religious life.

## BEST \$10 HE EVER INVESTED

One of the most influential business men of this city met Dr. Richards on the street this morning and said to him:

"Say, Dr. Richards, I told my folks this morning that I never spent \$10 in a way that gave me as much satisfaction as the \$10 I paid you for those two gold crowns you put on for me some time ago."

"I never had an idea you could save those two wrecks of teeth, but now they are my best standbys."

"This work for him was also absolutely RAINLESS."

What I did for him at a reasonable price and without pain I can do for you in a like manner "if" you let me do your dentistry.

Dr. F. T. Richards, office over Hall & Sayles' jewelry store, West Milwaukee street.

## Cleaners & Dyers

**Suits and Overcoats  
Cleaned and Pressed.**  
Made as good as new.

**Janesville Steam Dye House**  
Carl F. Brookhaus, Prop.  
59 East Milwaukee St.

## RINK NIGHTS Monday, Wednesday, Fri- day and Saturday, and every afternoon.

**Regular Dinners  
15c  
At Myers' Restaurant**

**VAN BIBBER**  
Cut Plug; the best ad-  
vised smoking Tobacco  
in the world.

**LEFFINGWELL'S,**  
N. Main Street.

**Does that old Watch  
give you lots of trouble?**  
If so, let us sell you one from our large, new stock. All of the best medium and high-priced movements, together with any style case you may wish. We guarantee them.

**KOEBELIN'S**  
Jewelry and Music House,  
Hayes Block.

**OUR WALL-PAPER**  
Our new and exclusive designs in artistic color effects that you can't find elsewhere in town. Besides that, we put brains into the hanging and produce artistic decorations at little if any more cost than commonplace paper-hanging. Let us show you our newest styles.

**BLOEDL & RICE**  
The Main St. Painters.

**Notice To Automobile  
Buyers.**  
YOU OWE it to yourself TO MAKE a careful investigation BEFORE making your selection. Too many people buy motors cars WITHOUT SUFFICIENT scrutiny, and are GUIDED BY a too implicit confidence in the advertised claims; many of which ARE NOT based on facts. Come in and see the MAXWELL car yourself. We will give it any test you may ask. Prices from \$750 up.

**PIERSON'S AUTOMOBILE GARAGE**

**J. M. GIBSON**  
COMMISSION BROKER.

**Stocks, Grains and  
Provisions**

For Cash or on Margin.

## LOCAL MEN NOW MUCH INTERESTED

**DEFEAT OF THE PHILIPPINE BILL  
REJOICED IN.**

**MEANS MUCH TO THE STATE**

Secretary Fisher [Discusses the Bill as it Might Have Passed the Senate.]

Washington, March 2.—By a vote of 8 to 5 the senate committee on the Philippines today refused to report the Philippine tariff bill. This effectively disposes of the measure.

The above dispatch was received in the Gazette office shortly before noon today. This settles the question as to the danger to the Wisconsin crops of the future and will greatly stimulate tobacco growing and the tobacco industry. While the measure passed the house with a good majority, there was considerable question as to its passing the Senate even if it had been pressed.

**Last Night's Report**

Dispatches emanating from Washington last evening, announced that the Philippine tariff bill was scheduled to come out of the committee today. Votes were to be taken on all pending amendments and then on the bill itself. Senator Lodge, chairman of the committee, was of the opinion last night that a favorable report would be made through an arrangement whereby Senator Nixon of Nevada, who had opposed the measure, it was said, would vote for it to oblige his friends and get the matter before the senate for disposition. Others made the claim that a favorable report could not be obtained in the committee. It was said that the best that could be expected would be a report without recommendation. This would have left the members of the committee free to follow their own inclinations when the measure should have come up for consideration. Indications last evening were to the effect that the bill was certain of defeat in the senate. It was said that the Democrats were being drawn into line by the party leaders to oppose it and that, with the assistance of the beet sugar and tobacco senators, would more than constitute a majority.

**A. L. Fisher Wrote Senators**

In letters mailed to both of the U. S. senators from Wisconsin yesterday, Secretary A. L. Fisher of the Wisconsin Growers' and Dealers' Association set forth in clear and concise form all the arguments which the leaf men in this section have to urge against the bill. The 1905 crop in Wisconsin, he told them, averaged eleven cents a pound and at a conservative estimate the farmers received a total of \$4,000,000 therefor. The state annually produces 35,000 acres of the leaf, averaging 12,000 pounds per acre. With the passage of the bill it is reasonable to suppose that the American Cigar Co. would concentrate their efforts in the Philippine Islands. There, with at least 100,000 acres in the two best tobacco-growing provinces available and susceptible of producing leaf of a quality superior to any domestic tobacco now raised, even in Porto Rico, it would be possible to almost supply the world. The whole of the United States now raises but 110,000 acres. Comparisons of the quality of the leaf grown in the islands and in Wisconsin, showing that direct competition would result, were also carefully elaborated.

**Letters Received Here**

Manager W. J. Brill of the United Cigar Co. in his letter to Mr. Fisher, furnished a quantity of important information. He said, among other things, that the Philippine cigars were even more dangerous in the harm they might work to Wisconsin tobacco than the raw leaf. Wisconsin tobacco is largely used in the manufacture

(Continued on Page 7)

## FUNERAL SATURDAY OF JOHN McNAUGHT

Remains of the Late St. Paul Division  
Engineer Will Arrive To-  
morrow.

The remains of the late John McNaught will arrive here from Chamberlain, South Dakota, Saturday, March 3. Mr. McNaught's sudden demise was due to pneumonia, contracted while at his work. His aunt, Miss Emma Hawley, arrived in the city today from St. Paul and a brother, W. C. McNaught, came from Milwaukee. His parents, Major and Mrs. McNaught will arrive tonight from Bixby, Miss., where they have been spending the winter. Mrs. Amos Prichard and her daughter, Miss Charlotte, arrived last night from Clinton, Iowa, where Mrs. Prichard was visiting. Prominent railway officials of the St. Paul system will be present at the funeral on Saturday.

## INDEPENDENT TEAMS MAY PLAY THE GAME

Janesville Will Probably Not Be in the  
State League—To Play at  
Yost's Park.

It appears from lack of interest in the matter that Janesville will not be represented in the Wisconsin State League this coming summer. There is some talk of organizing an independent baseball team in the city to play at Yost park. A dispatch from Clinton, Iowa, announces that this city has also refused to join the Wisconsin league and will have an independent team.

## HORSES WANTED

All kinds of horses, suitable for the market, from 4 to 14 years old, will be here Saturday, March 3, at Farmers' Rest. E. PERKINS.

**Notice**

Rock County Pomona Grange will hold their quarterly meeting at Milton Junction Wednesday, March 7th, at 11 a. m. S. J. JOINER, Master.

## CAN'T GET ICE AT ANY PRICE

**MADISON LAKES ARE CHUCK  
FULL, TOO.**

**RATES WILL DOUBLE HERE**

According to the Predictions of Henry Tall—Coal. Bin Joy To Be Short-Lived.

Those who have managed to save a few dollars on coal during the warm winter which is now nearing its close will do well not to recklessly squander the sum for luxuries. The ice famine which nobody worries about just now is to be a grim reality in all but the lake cities of southern Wisconsin and northern Illinois and the shadow it casts over anticipations of the approaching summer is a chill and forbidding one. When the hot days arrive, even cool shadows will be at a premium, if present indications count for anything.

**Two-Thirds of Usual Crop**

"In twenty years I have never seen another winter like this one," said Henry Tall of the City Ice Co. this morning. "We have gotten in about two-thirds of our usual crop, but this proposition must not be overlooked: Local institutions which have maintained their own storage plants and haven't depended on us in the past have not laid in a pound this season. The demand is going to be much larger than ever before and the supply is going to be shorter. Foreseeing this contingency we have made no contracts to fill private ice-houses. Prices are bound to soar. If ice is sold at double its former quotation I will not be surprised."

**Lake Full—No Cars**

"Wednesday I went to Madison prepared to spend \$1,000 to get some additional supplies. You know the freight costs more than the ice itself, but it would have been worth while if I could have gotten it. There is plenty of the solid stuff in the lakes—twenty or more inches thick—enough to supply the United States, but the railroads are not ready to furnish their box-cars in any considerable quantity. They will agree to let you have eight or ten when you want a hundred, and one can't afford to use only eight or ten when it costs two or three hundred dollars to get a platform in shape for loading it. There was a man from Peoria there who was desperate. He wanted to contract for 500 cars, but none of the railroads would agree to furnish them. We can't use flats on account of the weather and ice warps the box cars out of shape and makes them so damp that they cannot be dried out and used for other purposes except in the summer time. For that reason the railroads are not over-anxious to handle our business."

**Artificial Ice Plant Expensive**

"The ice companies that maintain their storage houses on the lakes are going to turn over fortunes during this coming summer. The inland cities like Rockford haven't harvested anything worth speaking of. Why don't we build an artificial ice plant? It would cost \$50,000 and might not be worth while again for twenty more years. Janesville is going to need over fifty tons a day. They have over 150,000 tons stored at Madison and there is going to be big money in it for somebody."

## NEWS OF A PERSONAL NATURE

U. S. District Attorney W. G. Wheeler left last evening for Superior. Charles Belmont of Lake Mills was a Janesville visitor Thursday.

Mrs. Floyd Duwiddie was hostess to the J. C. club yesterday afternoon.

Rev. Father Ward of Beloit was a visitor in this city yesterday.

Harry Brown, formerly of Janesville, but lately of Kaukauna, arrived in the city last evening and is visiting friends and relatives here. Upon departing from here he will go to Casper, Wyoming, to resume his duties in the office of W. D. Canillon, which was until recently at Kaukauna.

Mrs. Locke B. Pierce of Evansville, who has been visiting here, left this morning for Monroe.

Miss Florence Palmer of Stoughton, who has many friends and relatives in the city, seriously ill at a hospital in Madison.

Mr. and Mrs. Walter A. Atherton have departed for Lodi, Calif., where they will reside in the future.

Stephen Soldmore is the guest of relatives in Hanover.

Mrs. L. D. Robinson entertained a few lady friends at five o'clock tea yesterday afternoon.

A. W. Slocum has gone to Milwaukee to take a position with the Badger Candy Co. Mr. and Mrs. Slocum will continue to reside in the city and are now making their home in the apartments over McClure's restaurant.

Charles Bentley and Penn. Brown of Edgerton are in the city.

Internal Revenue Collector H. S. Vaughan of Platteville is in the city.

A. G. Stokes of Beloit is in the city.

C. B. Mead of Rockford is a Janesville visitor.

Mr. and Mrs. M. A. Lukken of Stoughton were Janesville visitors yesterday.

William Boehme, day clerk, and F. B. Tuttle, night clerk, relinquished their positions at the Grand hotel yesterday. Mr. Boehme went to Milwaukee and Mr. Tuttle went to Madison to begin his duties as night clerk at the Avenue hotel.

## THE WEATHER

Temperature last 24 hours taken from registered thermometer at Heimstreet's drugstore: highest, 50; lowest, 37; at 7 a. m., 40; at 3 p. m., 44; wind, southeast; rain, 0.06; river has risen ten inches since 8 a. m.

## Money Grows

Hear the truck grower of the Gulf coast country of Texas talk: 1905 crop onions, \$600 per acre; cabbage, \$400 acre; tomatoes, \$350 acre; melons, \$150 acre; beans, \$175 acre; cucumbers, \$200 acre; cauliflower, \$500 acre. Go town next Tuesday and investigate, round trip, Chicago, \$26.05. Talk to Lowell, 5 Carpenter Bldg.

## HAS INVENTED A BEET HARVESTER

**J. H. HUNTRESS PERFECTS IDEAS  
OF FARM MACHINE.**

**WOULD DO WORK OF SIX MEN**

Is Designed to Cut Foliage, Top Beets, Pull Them and Gather Them in Piles.

J. H. Huntress of this city, has invented a vegetable harvester, which, if it proves successful, will make beet culture far more profitable. The machine is designed to mow down the foliage, throw it to one side of the row, top the beet, pull it and pile the product in lots of from three to four bushels. A team will be able to pull the vehicle and but one man is needed to operate it. The advantage of the machine over the manual labor method of harvesting beets is found in the fact that it will do the work of six men.

**Would Manufacture Here**

Mr. Huntress has been working on his ideas for the past two years and now he believes he has perfected them. He has created a small model, which he will send to Washington shortly, seeking a patent that will cover the invention. When this is accomplished a full sized model will be constructed and tested in some of the beet fields in this vicinity. Should it prove efficient, as Mr. Huntress firmly believes it will, he expects to interest local capitalists in a project to manufacture the machines. He says once on the market it could not fail to sell, for there is nothing like it to be found and it will prove a great labor saver.

**Mechanism in Detail**

The machine is long and narrow and is carried on four wheels. Near the forward end is a rotary mower, the blades of which whirl horizontally. Each blade is "backed up" with a screen which catches the cut foliage and throws it to one side. Immediately back of this is a rake, meant to catch any foliage that happens to remain in the path of the machine. This rake is patterned like a snow plow. Two rollers cut down on either side of the row and a broad horizontal knife, self adjusting, tops the beets. The ground being loosened by the rollers the beet is picked out by a frame scoop. An endless chain, with blunt prongs, picks up the vegetable and elevates it to a platform at the rear of the machine. This platform will hold between three and four bushels and when filled can be dumped. Nothing is left to be done but to pick up these piles in wagons and deliver.

**A Versatile Harvester**

The machine can be used for turnips or any other similar vegetable and Mr. Huntress says that by a few changes the machine could be made to harvest early cabbage. By eliminating the mower and rake in the forward part of the machine it is converted into a potato digger. However, Mr. Huntress believes that a different machine on the same ideas would be practicable for potato harvesting and has made a small model. The "digging" apparatus is very similar but the potatoes instead of being dumped in piles are carried from the rear platform by a second, endless chain elevator to a wagon, which can be driven at the side of the digger. Beet growers and implement dealers have inspected the machine and pronounce that it seems practical.

### CATHOLICS STARTED TROUBLE AT NANCHANG

Dispute Over Title to Property With Chinese Official Precipitated Attack on Missionaries.

Shanghai, March 2.—According to the first authentic account of Thursday's attack on foreign missionaries at Nanchang, received here, the trouble was caused by a quarrel between French Catholics and a Chinese official over the title to some property. At that time there were fifteen Methodist, twelve English Protestant and fourteen French Catholic missionaries in the city. A mass meeting was held on Saturday and was followed on Sunday by a riot, during which the property of the Catholics was burned. The Protestants took refuge in the adjoining house of Mr. Kingman. The house was burned and six priests and two of the Kingman family were killed.

The Chinese governor attempted to check the riot and rescue the missionaries. The men of the Methodist mission, aided by Chinese soldiers, took their schoolgirls to Chinese homes in the city and brought Misses Hoyt and Kahn from a hospital.

All took refuge in midriver in a launch which was furnished by Chinese officials. The launch reached Kiukiang on Tuesday. The wounded Kingman girl died on the way. Chinese could have blocked the passage of the launch during the twelve hours' journey down the river, but they were friendly.

Rev. A. P. Quimbach of the Methodist Chinese inland mission remained at Nanchang to care for property. He is under the protection of the governor and is probably safe. Rev. Spencer Lewis, superintendent of the Methodist Episcopal mission at Chungking, wired the facts to Bishop Bashford.

Serious blame attaches to the French Catholics. Chinese friendly to the missionaries object to priests exercising civil functions.

There is much dissension throughout China, but there is no indication of a general uprising against foreigners.

The Nanchang magistrate who was wounded during the dispute is dead.

### FATHER ADMITS SLAYING SON

Says Boy Was Weak-Minded and He Wished to Get Rid of Him.

Doylestown, Pa., March 2.—Gustave Closson of Morrisville, this county, pleaded guilty in court here to the murder of his young son last May. He was sentenced to death. Closson confessed that he wished to get rid of the boy because he was weak-minded and that he had given him rough on rats. Closson is about 70 years old.
